

The City of Moraine, Ohio has launched a broad study to chart a course for the future of economic development in the City. This multi-faceted, six-month project has resulted in a comprehensive economic development strategic plan for Moraine.

AngelouEconomics (AE), an economic development consulting firm based in Austin, Texas, has helped us:

- Facilitate a unified vision guiding economic growth for the City and region
- Strengthen the capacity of area education and workforce systems to meet target industry demands
- Build a redevelopment plan for the recently closed GM site
- Identify specific short term strategies that lay out steps to attract, retain and expand high growth industries
- Develop longer-term strategies to create sustainable high-wage jobs in a mix of profitable industry sectors that leverage Moraine's current set of assets
